

Is it possible?

Can a lifetime of bad money habits be unlearned in just 2 days?

“Yes!” says Australian healer, coach, trainer, author and the founder of Robert Kirby International (RKI), Robert Kirby.

This may come as a complete surprise to you, but Robert does not blame you for your bad money habits—and does not want you to blame yourself either!

- If you find yourself in credit card debt or some other poorly planned/avoidable debt, no matter how much you make . . .
- If you inevitably end up spending everything you've worked hard to earn . . . or
- If you find yourself in a financial rut, unable to make more than you did last year or the year before . . .

Robert wants you to know that bad money habits . . . living paycheck to paycheck . . . and any personal financial crisis you now find yourself in are all signs **you may be unconsciously resisting money.**

Like 8 out of every 10 people, you may be projecting a negativity about money, yourself and your past that you have inherited from your ancestors, family and/or culture.

And this may be the key reason why you are not as financially well-off as you wish and deserve to be.

But there is a way out.

And it's called ***Wealth Through Inner Wisdom.***

Wealth Through Inner Wisdom is designed to help you finally move from a default survival mode to one of *active creation* by transforming the negative beliefs, values and emotional blocks residing in your cellular memory.

Wealth Through Inner Wisdom can be of immense help to you if you are projecting negative or fearful thoughts about money that you are not even aware of.

The 2-day event will also be useful if you are also or otherwise suffering from:

- Poor health

- Chronic pain or inflammation
- Compulsive behaviour
- Addictions
- Low energy

“When I was diagnosed with Crohn’s disease I became angry, resentful, and fell deeply into victimhood. After finding and working with Robert Kirby I was able to own and experience the many ways my painful childhood had settled in my gut and I had closed off my heart.

I was filled with trauma from the past that hadn’t been addressed or acknowledged. Robert used techniques that led me to release beliefs, emotions, and feelings that were at the core of my illness. With his help I healed from a disease that I had been told repeatedly was incurable.

I am eternally grateful for Robert’s wisdom and his determination for me to recognize and listen to the language of my body and live from my heart.”—**Holly Riley, author of *Allowing: A Portrait of Forgiving and Letting Life Love You***

Wealth Through Inner Wisdom will help you:

“Robert Kirby has been a part of a major change in my personal life which has ultimately impacted on positive changes in my work life.

When you have reached a high level of management within a company it is not often that you are inspired by training and coaching techniques that have major changes in both your personal and work life. Through Robert Kirby’s techniques I have been fortunate enough to unravel issues that I did not even know that I have kept deep inside me from many years in the past.

By focusing on these issues and understanding the different types of people that we are surrounded with in our day to day life I have been able to increase my productivity and also increase productivity of my team.

Understanding people and their needs assists in creating a positive work environment which equates to reduction in sick leave. Working with people’s attributes and understanding their insecurities creates a workplace where staff genuinely cares about the company success.

The bottom line is that company profits are related to the environment at work and Robert Kirby has the tools to make positive change in organisations.—*Con Katsinas, CEO, International Hotel Services*

A word about the work of Robert Kirby International

We do what we do because we dream of a world without human suffering, a global community of men and women who are equal despite their differences . . . mentally sound (without medication) . . . physically vibrant . . . and creatively free to express their greatness. We do what we do because we envisage a world where people are not only financially evolved but also cognizant and certain of the divine purpose of their soul . . . and every individual is cherished, loved and safe in happy families. We do what we do because we believe in a world of clear minds and strong bodies beyond the reach of drug-induced cultures. Finally, we do what we do because we believe in a time when we will be able to love ourselves and each other, achieve sexual fulfillment without shame or the fear of persecution, and freely express talents as unique as we are.
