

**Subject:** It's not too late to reinvent yourself financially

- - -

Dear [First name],

It's not the economy . . .

It's not a lack of money . . .

It's not a lack of time . . .

It's not even a lack of financial knowledge.

The reason why you are not as financially well-off as you deserve to be may be . . .  
**YOU.**

Like 8 out of every 10 people, you may be projecting a negativity about money, yourself and your past that you are not even aware of.

The good news is . . . you *can* break free from your current debt, break-even or faulty wealth consciousness if you follow the 5 steps outlined in my FREE introductory workshop about my ***Wealth Through Inner Wisdom*** training.

The 5 steps encompass the same principles I have used to help successful people **overcome a prosperity plateau**, and regular Australians and others around the world to **awaken their money consciousness and welcome financial abundance into their personal, professional and business lives.**

On a personal note, these are the same principles I have used to successfully reinvent myself 4 different times . . . and consistently earn a 6-figure income in the process.

In other words, these principles work—**no matter who you are . . . and no matter what your past and current social and financial background may be.**

Among other things, these principles will help you:

- use your strengths to create the lifestyle you desire
- remove blocks to receiving money
- transform your physical and mental relationship with money
- master the secret laws of money
- align with the real law of attraction
- gift yourself the abundance you deserve

I urge you not to deny yourself this exciting opportunity.
